

## THE WORLD OVER

DOMINION TO CONTINUE RELIEF

SAMUEL INBULL IS ACQUITTED

URGES BILLION DOLLAR SCHEME

SHORTWEIGHT NOTICE

The Dominion government has absolutely no intention of ceasing financial aid to provinces for relief purposes, Mr. H. H. Bennett, Prime Minister of Canada, stated last Friday on his arrival in Calgary. "Such rumors or reports are wholly without foundation," the premier said. "As a matter of fact I believe an agreement with the province of Alberta is already being drawn up which will continue until the end of the fiscal year."

CHICAGO—Samuel Inbulla on Sunday

secured his bail after a \$125 stock market collapse undermined his \$2,000,000 paper empire. A federal court jury believed his assertion of "gentleness, the worst that was said was that I erred in judgment, not in honesty," and Saturday acquitted him, his son and 15 other former lords of La Salle street, on a charge of mail fraud, \$100,000,000 in magnitude.

But even in his moment of triumph Inbulla could think of the days ahead. "I look upon the verdict as the start of my vindication. There are other cases pending, you know."

OTTAWA—Demand for a government loan to start the country on its billion dollar building and construction program will be made available in the Commons early next session by Hon. H. H. Stevens, former minister of trade and commerce.

Mr. Stevens will ask the government to take action towards a general drawing out of frozen assets that money may be made available for industry at interest rates which can be met. It is pointed out that the building and construction industry is stagnant because there is no money for builders' loans or mortgages. Trust companies and finance corporations have their assets frozen and what money there is available is held in nervous flight.

OTTAWA—Any Canadian housewife inclined to wonder at the appetizer of her family judged by the grocery bill might find a reason for the mystery the evidence given before the Royal Commission on Mass Buying. A witness' statement of selling short-cuts in grocery stores all across Canada was disclosed.

Rutherford Cuddy, inspector of

## WORLD WHEAT PRICES ARE LOW

Western Canadian farmers may not be aware of the world situation in wheat prices, and it may come as a surprise to them to learn that the price in Liverpool last week-end came very near the record low established in December 1932, when Canadian wheat at Port William was quoted at 36s a bushel. At that time Liverpool was 4 shillings 4-4 pence, while on Thursday last with Winnipeg December wheat at 17s the bushel the December price at Liverpool was only 4 shillings 8 pence, or 1-4 d. higher than two years ago. Difference in exchange, of course, accounts in part for the increase in Canadian prices, but the fact remains that the price of the Liverpool market and the posted price in the Winnipeg Grain Exchange are two very prominent factors in the situation.

## Find Remains of a Sea Monster

PRINCE RUPERT, B.C.—The discarded remains of a strange marine monster 30 feet in length, resembling the sea serpents which have previously been reported in British Columbia waters, was brought here last night from Henry Island by Dr. Neil Carter, director of the Prince Rupert Division fisheries experimental station.

The body was so decomposed it was impossible to preserve it intact. It was found in a small cove on the shore of the body was so decomposed it was impossible to preserve it intact. It was found in a small cove on the shore of the body was so decomposed it was impossible to preserve it intact.

weights and measures for the Dominion government, submitted reports on shortweights based on an investigation made this year. The results of the investigation showed that out of 1,132 items bought in 473 orders in cities and towns from Montreal to Victoria, 558 items, or 49.3 per cent, were short-weight; 569 items, or 49.5 per cent, were correct weight, and 45 items, or 3.7 per cent, were over-weight. Mr. Stevens, in commenting on the report, urged housewives to see that they were given correct weight at all times. The report, he says, has been tested twice a year and he knows when he gives you underweight.

CARD OF THANKS  
We wish to thank the I.O.B.F. and friends for their assistance during the lengthy illness of Mrs. J. Tabert and Mr. J. TABERT and Mr. J. TABERT.

## Mayor Garrett Officially Welcomes Old Timers

With banquet and dance the Old Timers of the Carbon district celebrated their annual re-union at the Farmers' Exchange Hall on Friday evening, November 23rd.

About 150 guests sat down to the well-filled banquet tables and catering was done by the Carbon Ladies' Aid, who excelled themselves on this occasion.

Following the banquet a short program was given under the chairmanship of the President of the Carbon Old Timers Association, Jas. Gordon. Mayor Garrett of Carbon was called upon and officially welcomed the Old Timers at the gathering and recalled the good days when he was raised and schooled in Carbon.

Mrs. Margaret Chalmers, 11-year-old eldest daughter of the mayor, was given the honor of introducing the mayor to the gathering and as usual, his speech was well greeted with applause and appreciation. Mrs. Chalmers gave a number of selections throughout the program.

W.A. Brubaker, treasurer of the organization, presented the report of the gathering and as usual, his speech was well greeted with applause and appreciation. Mrs. Chalmers gave a number of selections throughout the program.

James Gordon also addressed the gathering and presented the report of the gathering and as usual, his speech was well greeted with applause and appreciation. Mrs. Chalmers gave a number of selections throughout the program.

The Carbon Old Timers gathering commenced in 1925 and has continued yearly since that date. Last year the banquet was held at the Carbon district, as well as present citizens of the district and many old acquaintances and friends are gathered on this occasion. Many of the old timers of the early days come miles to be present and no doubt the trip is well worth the trouble.

It is with this view in mind that the old timers of the district plan their annual celebration and as a year's affair it has the appreciation of the membership.

## STEADY PROGRESS

During the last year or more no publication has shown more remarkable strides in the matter of increased circulation than has the Family Herald and Weekly Star. This is not strange for it is evident that in times of stress people are prone to cut down on the number and variety of magazines and papers coming into their homes and they find in the Family Herald and Weekly Star a paper which at \$1.00 per year, gives them every variety of reading, for old and young, all combined in one publication. Every issue overflows with practical farming ideas, up-to-the-minute articles, short stories, etc. The Family Herald and Weekly Star is the best for the least.

## DECEMBER 4th, LAST DAY TO MAIL CHRISTMAS PARCELS

Patrons of the postal service were warned last week by the Family Herald and Weekly Star that mail and Christmas parcels destined for Old Country points must be mailed within the next few days in order to meet their delivery before December 25th.

The last steamer carrying mail for Old Country points is to be delivered on the 28th of December. The S.S. Duchess of York, which sails from John, N.B. on December 31st at Halifax, N.S. on December 3, 1934.

## WHEN CORK IS KING

DECEMBER 5th

The Carbon Minstrels will present their 18th revue "When Cork Is King" in the Farmers' Exchange hall on Wednesday evening, December 5th. This musical comedy will be held under the auspices of the Carbon curling club and the show will start promptly at 8:30 p.m.

Those off your troubles for a night and bring in your family for an evening of revelry.

## No Alta. Election Likely Till June

After a three-day caucus in Edmonton, the U.P.A. members of the provincial government adjourned and the most important news available to the press was that a general election was not likely to be held before next June. It is unlikely also that the type of election to be held will be a by-election.

According to press dispatches, it is supposed that if there is any improvement in conditions between the government and the opposition, a general election will be held in June. It will react in favor of the government, as it is generally expected that the opposition will be defeated.

Motor Licenses  
Motor license fees were discussed by the caucus. It is reported, but it is unlikely that there will be any change in the license year or in rates. However, the government is not likely to again expose itself to the criticism it received this year, when it was claimed that adequate notice was not given for owners of requirements for the periods the license could be taken out at the current rate.

High Gas Prices  
High gasoline and fuel oil prices, along with the high cost of repairing farm equipment, also came in for discussion and action by the government under this line was advocated.

When gasoline prices were discussed it was brought out that the price at the well in the southern Alberta field was six or eight cents higher than in the rest of the province. This is due to the fact that the price in Ontario.

In all likelihood there will be a public inquiry when all the evidence concerning the high fuel prices, especially as they affect agricultural producers, would be brought out.

Egg and Poultry Inquiry  
Members also are said to have drawn special attention to the low prices received by farmers for butter and eggs compared with the high prices of these products in the cities, while it was admitted that the new federal marketing act may give some relief along this line, it was suggested that the facts would be brought out at a public inquiry.

The feeling in regard to the new trade aid industry act was that the government should not be hasty in dealing with this legislation.

Debt Adjustment  
Debt adjustment also was discussed fully by the caucus. The main question was to co-ordinate the work of the provincial and federal administrations so that government had the administering of debt compromise legislation for farmers. The purpose is to make this "dove-tail" in such a way as to be efficiency and satisfaction for all concerned.

These New Cars Not So Good  
While the government was criticized for its new trade aid industry act, it was also criticized for its new car program. It was said that the new cars were not so good as the old ones, and that the government was not so efficient in its purchasing as it was in the past.

While the government was criticized for its new car program, it was also criticized for its new trade aid industry act. It was said that the new cars were not so good as the old ones, and that the government was not so efficient in its purchasing as it was in the past.

## GENERAL MEETING OF CARBON OLD TIMERS DECEMBER 8

The Carbon Old Timers Association will hold their annual general meeting in the Farmers' Exchange hall on Saturday, December 8th, at 3 p.m. All old timers who came to Alberta before December 31st, 1909 are asked to attend. Important business to be discussed, including adoption of by-laws, election of officers, and financial statement.

## STARK TRAGEDY

Silent and without ceremony the operator allows a stream of poison pellets to trickle through his bony fingers. Nervously he watches the balance. There must be no mistake. Not a thousandth part of a gram too little. Not the weight of a hair too much. The ingredients must be exact. The occasion demands it.

Carefully the dose is measured and weighed, then one by one, with shaking hand, he drops the glittering particles into the dark brown fluid.

Without turning to note the tense faces of associates, he quickly snatches the receptacle and with deft precision deposits it in its niche in the infernal machine.

With a snarl after he controls his shivering nerves, and turns the key. As the current begins to mix with the fluid a startling transformation takes place. With bloodshot eyes, those looking on can only gasp and stare as the elements bubble and spit and foam.

The only audible sounds are the deep breathing of the men and the silent hissing of the indicator. The operator silently watches as the minutes dash by—five—ten—fifteen. Merciful Heaven! What will the end be.

Another minute goes by and another. Still he sits with his eye on the indicator, his mouth open in a gasp, his hands clasped in prayer. The atmosphere of the small room, the stillness of death is upon the little group. No one speaks. One man is seen to wipe his perspiring brow with the sleeve of his coat. The physical and mental strain is tremendous. The fluid is mounting higher and higher in the glass. One-seventy; one-seventy-five. Still the operator does not move.

With grim certainty, those present desperately await the outcome—One-seventy-eight; One-seventy-nine. His hands off the current. With laborious breath and tense nerves the men look at him and see that last. Only the operator lifts the deadly vial. It is to the light, and with practical ease, scans its markings. Suddenly he speaks: "Fifteen—fifteen—two: fifteen." Then for the first time he lifts his eyes to the agonized group before him. "Gentlemen," he says, "your wish is granted"—"Exchange."

## Mrs. J. Tabert Dies Saturday

Mrs. J. Tabert, a resident of Carbon for many years, passed away on Saturday morning, after a lengthy illness. She was 68 years of age. Mrs. Tabert was born in Iowa, 6 months and 5 days after the time of her death and was born in Long Lake, North Dakota, coming to this district in 1908. She leaves besides her husband, two daughters, Mrs. Norman, of Bentley, and Mrs. Harmonson, of Carbon, also six brothers, Prof. Jacob, William, Walter, George and Philip, all of the Carbon district, and three sisters, Mrs. W. McInnes and Mrs. J. McInnes, of Bentley, and Mrs. Grayson, of Hanna.

Funeral services were held from the First German Baptist Church, near Carbon, at 2 o'clock on Tuesday, November 27th, and were conducted by the Rev. A. H. Harnam. Interment was made in the Green Hill cemetery. Winter Brothers Funeral Home of Drumheller had charge of funeral arrangements.

## BENNETT WILL SEEK ELECTION

Premier H. H. Bennett gave assurance on Monday before his departure for the west that once again he would lead the government in the House of Commons from Calgary West. Date of the coming federal election has not been set.

## Cracksmen Infringe Municipal Office At Irricana

IRRICANA—Expert safe-crackers held the vault in the municipal office of Kootenai County, located in town, on Tuesday morning. Fortunately Frank O. Being, secretary of the municipal district, had banked all money on a Monday afternoon, but after an all-night check-up had been taken, it was found that \$125 was taken.

The cracker tried open a rear window to enter the office and then began work on the vault. A huge alarm bell broke the wall. The door on the eighth foot door was knocked off. Explosion was made under expert supervision. It was found on the floor of the vault, however, considerable damage was done due to cracked walls, and the explosion must have been terrific, although no one heard any sound.

Bitterness welled in the Calgary City Council chamber on Monday evening, according to the Alberta Post, when the council learned that two aldermen left their seats to "settle it outside," but responded to the mayor's call to order.

## THE DOCTRINE OF SELF-HELP

THE PROGRESS OF THE AGRICULTURAL GROUP WILL BE MEASURED BY THE INDIVIDUAL'S DISCERNMENT OF THE TRUTH THAT SELF-HELP IS THE SOUND BASIS FOR ANY ADVANCEMENT.

## ALBERTA POOL ELEVATORS

## ASK YOUR DOCTOR FIRST, DOCTOR

Before You Give Your Child an Unknown Remedy to Take

Every day, unthinkingly, mothers take the advice of unqualified persons instead of their doctors—or remedies for their children. If they knew what the scientists know, they would *never* take this chance.

### Doctors Say PHILLIPS' For Your Child

When it comes to the frequently-used milk of magnesia, doctors, for over 50 years, have said "PHILLIPS' Milk of Magnesia—the safe remedy for your child."

Remember this—And *Always* Say "PHILLIPS' Milk of Magnesia" when you give your child. Remember this: for your own peace of mind, see that you get it—Genuine Phillips' Milk of Magnesia.

**Also in Tablet Form:**  
Phillips' Milk of Magnesia Tablets are now on sale at all drug stores everywhere. Each tablet is the equivalent of a teaspoonful of Genuine Phillips' Milk of Magnesia.

**PHILLIPS' Milk of Magnesia**  
MADE IN CANADA

## THE TENDERFOOT

By GEORGE B. RODNEY  
Author of "The Coronado Trail," "The Canyon Trail," Etc.

### SYNOPSIS

"You're fallen over to a half-sharp in plenty of trouble," the lawyer told Gerald Keene. "The Broken Spur has been systematically looting the ranch, and old Joe Carr, your partner, is drinking himself into rags."  
But Keene decided to go see what was happening for himself—not at Gerald Keene, half owner of the Hour-glass Ranch, but at Duro Stone, tenderfoot in a Montgomery Ward without outlet.  
Dad Kane, desert rat and liveryman, prospector I'll now is returning to tell Duro and Sabe Goddard, owners of the Broken Spur ranch, who had grubstaked him, of his discovery of a rich gold mine, and shows samples of it to one. He sees Broken Spur men

rustling Hour-glass cattle and protesters against it.  
Sabe Goddard and Sam Duro, fearing the old prospector may tell others the things he has seen as to the branding of Carr's cattle, plot to get him to show them the location of the mine. But he won't budge.  
Gerald Keene, dressed in ridiculous cowboy costume, arrives at the Hour-glass ranch and is hired as a cowboy by Joe Carr. The impersonation of a tenderfoot is successful, and he is accepted as such by the other occupants of the bunkhouse.  
(Now to Go With The Story)

CHAPTER V.—Continued

"You see I ain't done much real cow-hand work. I was livin' in town and I got me a little bit o' money. I learnt what I could from a few books I read an' then I come West to take the business. That's how come I was hired."

"Huh! Year . . . I . . . I see . . . That's fine. . . . Business talk in the croaking newness of boots and clothing, the clumsy equipment on the pony and he grinned into his hand. "I see you've got three notches on your gun," he said, with a grin at the others. "Where'd you buy it?"

"I bought it before I started West. All the books said that a notch is cut on the handle for every man who's been killed."

"Great God all mighty," said Bates, and at once. "You mean you've killed three men? In Chicago with a machine gun I reckon."

"Nope. I done it with an automobile. . . . I got all three of 'em at once. It was just like killin' quail. They was all settin' when I hit 'em. You see I was coastin' downhill an' the machine swung off the roadside. They was playin' damned cavities just like you was when I rode up and they was takin' a lot o' damn fool talk name as you. . . . So . . . I killed 'em."

At that even Sabe laughed.  
"Oh, let him alone," he said, grinning. "You'll get nothing out of him."

In this manner did Duro Stone come to the Hour-glass ranch. The bunkhouse did not know that Edith Carr, the pretty, red-headed daughter of old Joe Carr, saw the new man. She was mixing a mint julep for old Joe who was sitting in his front office with his game leg straight out before him on a chair when Stone arrived. She promptly took her "makings" into the back-office but was quite close enough to hear what took place.

"I'm learnin' tell you want new men," quoth Stone. "I'm lookin' for a job."

"S'at so?" demanded Carr. "What kind of a job?"

"Mostly eatin' with a little unofficial drinkin' throwed in. I don't

mind some ridin' on a nice family horse. I kin split wood an' haul water an' . . ."

"By God," said Carr, "that's more'n most can do' who hire out as cowhands. Know anything about cattle or is that outt all bought from a catalogue?"

"Not all of it," said Stone, grinning. "I won the spurs in a poker game."

"You're hired. Get back over to the bunk-house and kill the first cowboy who tries to play practical jokes on you!"

Edith came back into the room giggling. She had never seen any one just like that before.

"Who in the world was that, Daddy?" she asked. "He looks like a walking advertisement for Christmas presents."

"Looks like he'll do for you to play with, Honey, when he ain't workin'." Were sure out of luck when we have to hire men like that. He ought to do to ride fence and leave the other men free for regular work. When Frank Crewe got back send him in to me, will you, please?"

Edith gave him his julep, nodded her bright head, and picking up her quilt, passed out to the tie-hall where her pony stood. She was young; distinctly more than merely pretty and she dominated every soul on the Hour-glass. As her father watched her go, his face darkened. He had leg hurt him but other things hurt worse and a little later, when Frank Crewe came in for a chat, he found his boss and old friend in the depths. Crewe did not help matters for his dark face was darker with wrath where ordinarily it radiated good humor.

"Nothin' good, Joe," he said cryptically. "We've been combing the back-ranges for a week an' we got maybe four hundred. Not prime stock at that."

"Four hundred. . . . Joe Carr's tone registered utter consternation. "The beginnin' of the roundup and only four hundred calves from more'n three thousand cows. . . ."

"Calves, hell. . . . Crewe exploded. "I'm tellin' you, Joe, this four hundred is all! Git that? It's cows an' calves an' steers an' bulls, too. . . . Bredthin' stock an' increase."

"Carr tried to rise but sat back with a groan of pain. "Hell," he finally ejaculated. "That just ain't possible!"

"I know it ain't. And I know, too, where the stuff's gone but I'll be damned if I could either prove it to be our stuff or show how it was stolen. I know those damned robbers over on the Broken Spur are at the bottom of it. I know they sent two thousand head out to California two months ago to fatten for the market and I know they got seventeen dollars where we got eight-fifty. They're glad to ship their cows out o' the State. But we were asleep. We ought to have a man at the lookin' pen."

# Mothers adopt Vicks Colds-Control Plan

Helps the Whole Family to Enjoy Greater Freedom from Colds

Doubly welcome to mothers is news that the makers of Vicks VapoRub have perfected a Plan for Better Control of Colds—to help reduce the number, duration and dangers of colds. Vicks Plan is introduced along with Vicks VapoRub, the remarkable new aid in preventing colds—companion product to Vicks VapoRub, the modern method of treating colds. The Plan includes simple, easy-to-follow rules of health—to build resistance to colds.

## BRIEFLY, HOW VICKS PLAN WORKS:

### • TO HELP PREVENT COLDS

At first study feeling that first nasal irritation or sneeze, quick!—Vicks VapoRub—just a few drops up each nostril. Especially designed for nose and upper throat—where most colds start—VapoRub stimulates the functions which Nature has provided—in the nose—to prevent colds and to throw off colds in their early stages. Used in time, VapoRub helps to avoid many colds entirely.

### • TO HELP SHORTEN A COLD

If a cold has already developed, apply Vicks VapoRub at bedtime. VapoRub acts direct through the skin like a poultice or plaster, while its medicated vapors—released by body heat—are inhaled direct to inflamed air-passages. This double direct attack loosens phlegm—soothes irritated membranes—eases difficult breathing—helps break congestion. Often, by morning, the worst of the cold is over.

### TRIAL OFFER BY LOCAL DRUGGISTS

Get these two Vicks products and use them as directed in Vicks Plan for Better Control of Colds. Full details of the Plan are given in each package of Vicks VapoRub and Vicks VapoRub. Unless you are delighted with results, your druggist is authorized to refund your money.

"I know. . . . I know," said old Carr placatingly. "I didn't have a next pay-roll, Frank. I reckon I'm busted flat. I'm sixty-five past and I've got to take care of . . ."

"You needn't worry about her," said Crewe, who openly adored her. "Plenty of men'd be glad to relieve you of that care. Sam Dustin, for instance. . . ."

(To Be Continued)

There are six kinds of lightning—thunder, hail, sleet, snow, sleet and sleet. . . .

**for COUGHS**  
Take half a teaspoonful of Minard's Inhalant. Also rub it well into your chest.  
You'll get relief!

A woman claims to be able to drive home a two-inch nail with a single blow of a hammer. There's reckless driving for you!

## Faster Way Found to Relieve Headaches

NOW PAIN OFTEN RELIEVED IN MINUTES!

Remember the pictures below when you want fast relief from pain. Demand and get the method doctors prescribe—Aspirin.  
Millions have found that Aspirin eases even a bad headache, neuritis or rheumatic pain often in a few minutes!

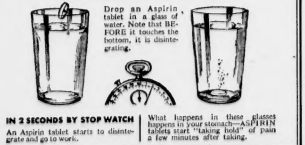

In the stomach as in the glass here, an Aspirin tablet starts to dissolve, or disintegrate, almost the instant it touches moisture. It begins "taking hold" of your pain

practically as soon as you swallow it. Equally important, Aspirin is safe. For scientific tests show that Aspirin does not harm the heart.

Remember these two points: Aspirin Speed and Aspirin Safety. And, see that you get *ASPIRIN*. It is made in Canada, and all druggists have it. Look for the name Bayer Aspirin tablet.

Get 10 or 12 tablets or economical bottle of 24 or 100 at any druggist's.

### Why Aspirin Works So Fast

**IN 2 SECONDS BY STOP WATCH**  
An Aspirin tablet starts to disintegrate and go to work.

What happens in these pictures happens in your stomach—Aspirin tablet starts "taking hold" of pain few minutes after taking.

**When in Pain Remember These Pictures**  
**ASPIRIN IS THE TRADE MARK OF THE BAYER COMPANY, LIMITED**

## TELL YOU HOW TO COOK FISH —with less work and no odor.

Boiled or steamed fish comes out firm and solid, swimming in its own juice, when you cover it with CANAPAR Cookery Parchment. No fishy odor. No gummy steamer or saucapan to clean up afterwards.

And how delicious vegetables are when cooked the CANAPAR way! You can boil three in one saucapan without the flavors mixing—over a single burner. Save fuel. Eliminate odor in the house. Preserve the rich mineral salts. Cut down work.

CANAPAR can be used over and over again. It won't absorb odors. Try it as a dish cloth—especially for glasses.

Mrs. Chalmers and daughter, Margaret, were guests at the home of Mr. and Mrs. Len Poxon for a couple of days last week. They returned to their home in Calgary on Sunday.

Miss Monica Hodgson arrived on Thursday and is visiting in town for a few days.

Mr. and Mrs. Tom Dalsiel of De Winton spent the week end at the home of Mr. and Mrs. Craddock and took in the old timers gathering.

Miss Dorothy McMillan left the first of the week for her home in Alaska.

Harry Bullock, of Kitchener, a Carbon old timer, took in the old timers' celebration here last week. Mr. Grant Thorburn of Calgary also attended the gathering and they both returned to Calgary on Sunday.

Mrs. Jas. Smith returned on Sunday from a week's visit in Edmonton.

Mrs. H. Skelton and son of Delta returned to their home on Monday after a two-week's visit with Mr. and Mrs. H.N. Elliott.

Mr. and Mrs. J. Dalsiel of Drumheller were here for the old timers' celebration.

Mr. and Mrs. H.C. Willson were in Calgary the first of the week.

Mr. and Mrs. Fred Fuller of Lonsana were Carbon visitors last week. They also attended the old timers' dance.

Mr. J.W. Baird came out from Calgary on Tuesday and is spending a few days in Carbon.

The Currier Clothing is extending operations and taking over the south west portion of the C.H. Nash building.

Clear days and frosty nights are now at hand with temperatures around the zero mark at night.

The big sale at the Farmers' Exchange seems to be attractive many hawthorn hunters. The store was crowded all day Saturday, the opening day.

Alex Poxon was the successful tender for the curling rink and he is now busy making ice. Curling will soon be in full swing.

W. Leitch will handle Christmas trees again this year. Place your order now.

The local stores have their Christmas display of gifts and toys out and it would be a friendly and profitable act if you would do your Christmas shopping in Carbon this year.

FOR SALE - 1927 Chevrolet Light Delivery cheap for cash - Paul's Service Station.

A further concession to the travelling public is announced by C. P. Russell, Chairman, Canadian Passenger Association. In the statement that in future one-month round trip railway tickets previously good for continuous passage only between departure point and destination, will be valid for stop-over at intermediate points going and returning. For many years Canadian railways have been selling one month round trip tickets at twice the one-way fare, less ten per cent, good for continuous passage only. Now, the stop-over privilege is granted without any increase in fare and passengers desiring to rotate to stop over, may do so on application to the conductor. This concession, it is felt, by railway officials, will do much to further promote travel by rail in Canada.

W. E. Allison, manager of mail and baggage traffic, Canadian Pacific Railway, has been elected vice-president of the American Association of Great Lakes Port Agents, comprising representatives of all the railways on this continent.

H. C. Grant, general superintendent, Ontario district, of the Canadian Pacific Railway, has been promoted to the post of assistant to the vice-president with headquarters in Montreal. Mr. Grant is a well-known and popular official of the railway in Ontario, where he has been stationed for a number of years.

## Let Us Do Your Printing?

All business houses need more or less printed matter, all of which is within the possibilities of the local printer. Yet how many are to pass up the home printer and let the orders go to city offices which have no interest whatever in rural communities to effect getting printing orders and the cash to pay for them. Business men, remember that the home paper is constantly promoting the interests of the home community and you owe it to yourself and your local paper to back up these efforts by at least having your printed matter done locally.
